Hiring Team

NES Fircroft

Re: Project Coordinator – Diversity

Dear Hiring Team at NES Fircroft,

I'm writing to apply for the Project Coordinator – Diversity role supporting Katy Hall and the DEI consulting team. The combination of structured project coordination, client-facing consulting delivery, and people-centred outcomes is exactly the kind of work I want to do next — and the way NES Fircroft has built DEI into a measurable, industry-shaping practice (reflected in your APSCo Embrace membership, Gender Equality Charter signatory status, and Katy's 2026 British Diversity Awards shortlisting) is what made me apply.

Over four years at Deloitte's UK/European tax-consulting practice, I've been the person who keeps complex, multi-stakeholder programmes on track. I've coordinated 10+ multinational engagements with 100% on-time delivery, owned RAG/RAID logs and SharePoint trackers across 30+ resources in four offices, prepared client-facing materials and workshop content, and ran the cadence of weekly status, leadership reviews, and follow-up actions across 3+ time zones. The bullet I am most proud of, though, is the simplest one: I mentored 5+ new joiners from diverse academic and regional backgrounds through onboarding, cutting ramp-up from six weeks to three. That experience — sitting with someone different from me, designing the process so they could succeed — is the seed of why I'm pursuing this role.

I bring honesty about where I am: I am not coming in with deep DEI domain experience, but I am coming in with disciplined project coordination, consulting-grade client communications, and a commitment to learn the DEI craft fast. I've already begun working through the APSCo Embrace charter, NES Fircroft's DEI thought-leadership posts, and DE&I-in-India; industry reports — and would welcome the chance to discuss how I can apply project rigour to your DEI programmes from day one.

I'm based in Hyderabad with full availability for Bangalore, Mumbai, hybrid, or relocation. I'm an immediate joiner. Thank you for considering my application — I'd be glad to discuss further at your convenience.

Warm regards,

Srikanth Chintala
